Dear Sirs

Re, Planning Application FG59/19/H4
Pied a Terre
Ferring St BN12 5JH

I write with reference to the above application that adjoins my bungalow of 2, Onslow Drive via a party wall.

I had no objections to the first application of a ground floor storey facing east onto Ferring Street, but I strongly object to the proposal to build a 1st floor storey with pitch roof. This will be higher than my property and

will these fence block my light and
also encroach on my privacy as it
will over look my garden and into my
bungalow, plus also affect my roof.

Further more such an extension will be
against the environment of fencing and
out of keeping with such. It could also
further exacerbate the existing problem
of parking, especially in Ouslar Drive.

Thank you in anticipation for
your attention to this matter and my
correspondence.

Yours faithfully
