Dear Sirs,

Development: Erection of Single Storey extension to East elevation and First Floor extension

Location: Pied at Terre, Ferring Street, Ferring

I wish to object to the above proposed development because I am concerned that the extended first floor will:

1. Cause loss of sunlight to my south facing window creating a darker kitchen and bathroom
2. Present a close blank wall from my window as the immediate view less than four metres from my south facing window rather than onto the unoppressive open forecourt view that currently exists
3. Cause a dominating and oppressive effect on my home
4. The block and roof plan shows the front roof line in line with the front of Pump Court and does not show the porch that projects in front of the building line, the proposed plans indicate the front wall in front of the building line
5. The trees and shrubs along the boundary between the two properties will be deprived of sunlight

I request that approval is not given to the two-storey scheme.

Yours faithfully,

A solid black rectangular box used to redact the signature of the sender.
