Subject: Objection to planning notice

Dear Ms. Gardner,

Re "Mary field", 78, Langbury Lane, Ferring, FG/65/18/PL

My wife and I wish to make an objection to the splitting in two of the above property. This action would create the requirement of two entrances/exits, one being into Langbury Lane and the other via Brookside Close. This might then mean that half of the building be subject to the Covenant applied to the properties in Brookside Close, meaning that no business be operated in the close.

The new block work pathway was laid to provide easier access to and from the entrance, for the previous residents to bring out dustbins and recycling bins to the roadside for collection. This was not designed to provide any vehicular access.

There are already parking problems in the Close caused by deliveries, tradesmen, visitors, including those who are visiting properties in Langbury Lane who are unable to park safely.

Yours faithfully,
K & EA Tebbutt
5, Brookside Close.
