Dear Sirs,

We wish to object to planning applications FG/66/18/PL for 78 Langbury Lane, Kerring. The change of licence to C3(b) covers such a wide area of application that the use the company wishes to apply for is very unclear.

The increase of numbers with the proposed residency is very high and unsuitable for the location. The parking is inadequate for possible family visitors, carers, transport services & vans. Being near to bend creates problems. Walking round this way almost daily we already have careless parking of cars across footway, and see problems buses have on bends especially when railway gates have opened.

Overall we believe this application is not right for this residential area.
