22nd May 2018.

Dear Sir,.

re - Application FG/66/18/PL.

I am a retiree widow and have lived happily in my present home for 44 years. My house happens to be just across the road from 78 Langbury Lane.

Most of my neighbours are retirees living on their own and like me are appalled that the above application is being presented for the purpose of a Care Home for Schizophrenic and Drug Addict patients i.e. '33'. C3(b)

The elderly residents of Ferring enjoy strolling around the area and go to the shops for groceries etc - which helps to keep them fit. It is a joy to live here - BUT - it won't be if this application is passed - many residents here and around about will feel quite unsafe and imprisoned in their own homes - too frightened to go out on their own - especially as there is no police presence in and around the area of the village.

The thought of this application being passed is absolutely appalling for residents peace of mind and safety - and not forgetting of course, the families with young children

and teenagers.

Therefore, I object to this Application.

Yours faithfully,

Gill Taylor (Mrs)..

Dear Sir,

re Application FG/66/18/PL

I would like to make the strongest possible objection to the above application.

I have been a resident of Denning for 46 years & feel it is a safe community. It is comprised of a mainly elderly retired population and to have some possibly disruptive and noisy people living opposite would be totally unacceptable in such an area.

The parking would cause more problems to an already busy road and late night activities alone would cause disruption to many and make the area unsafe for those living in the near vicinity and, possibly, alone.

This is a residential area and not suited to the kind of incumbents you envisage housing in our midst.

I trust you will listen to my strong objections. Yours faithfully,

To

Chief Planning Officer,
Arun District Council
