Dear Sirs

Re: Application FC/66/18/PL

I am writing in regards to the planned conversion of 78, Longbury Lane, Ferring into a rehabilitation centre.

Whilst I understand the social value of such a centre, I cannot help but feel that having such an establishment in the middle of our quiet community will cause undue upheaval and unrest.

We are a community made up of almost entirely retirees and choose this location for its peaceful setting and general air of safety.

I personally based my decision on health troubles after having a pacemaker fitted which made tranquil housing all the more important to me.

If we knew at the time we would be sharing our neighbourhood with a number of deeply troubled individuals I have no doubt that we would have reconsidered our choice.

We feel it could just take one individual

to make us feel so unsafe in our own homes.

We also feel there will be extra traffic and parking on the roads which are struggling at present to cope with the village being used as a cut through.

Each one of us will do everything we can to keep our village safe, secure, and the beautiful place that we moved to. I sincerely hope you will agree with our right to do so.

Yours faithfully,
