TREE WORKS: FRONT GARDEN

T1 HOLM OAK TREE (Ilex): Complete a full 20% crown reduction (2.5m) and crown lift to 3.0m from ground level.

This large tree is providing significant shade to neighbouring properties and excessively overhanging the pedestrian right of way. It is recommended to complete the full 20% crown reduction (2.5m) and a 3.0m crown lift from ground level. The reduction will help regain the appropriate size and shape of this impressive tree. This rejuvenation prune will also maintain the health of the tree for many years to come. Careful tree surgery is required due to proximity of the footpath, telephone wires, road, parked cars and fences.

Additional Notes:

- All work is undertaken by fully trained NPTC professionals. Public Liability insurance is provided up to £5 million.
- Our experienced and fully trained arborists work to high arboricultural standards and will ensure that all work will comply with BS3998:2010.
- All green waste taken to Woodhorn Group trade site at Runcton or Tangmere.
- Leave all thicker branches as logs for Jenny to split!
