Mandy

Can this please be added as a rep.

Andy

Please ensure that with other recent reps this is incorporated into your report.

Thanks

Dear Councilors,

On viewing an on-line email (advertised on 14/7/2020) to Andrew Wood from Kate Giddings, the Senior Technical Officer, Environmental Health at Arun District Council, it is somewhat alarming that the Senior Technical Officer of Environmental Health considers the Noise Survey of just one hour undertaken by Acoustic Associates Sussex Ltd, as satisfactory with the conclusions drawn.

In my email dated the 9th July 2020 to Andrew Wood, I did point out in the first paragraph that if a Noise Survey fails to include an adjoining neighbouring property then it is incomplete and misleading to everyone involved in making decisions regarding this Planning Application. It does seem very odd that as an adjoining neighbour to Waders, that I was not included in this Noise Assessment Survey. I can only assume that Kate Giddings has not seen my email dated the 9th July 2020 to Andrew Wood.

I and others locally believe that a Comprehensive Noise Survey needs to be undertaken at various times throughout the day including early morning and throughout the day to evening by an independent Company and not one chosen by the applicant. It goes without question the findings would be significantly different, than those recorded by Acoustic Associates Sussex Ltd. It is so important to have accurate data over a longer period of time. After all said and done, the Hangleton area is very quiet early mornings and evenings, the thought of 20 or so barking dogs would ruin that on Environmental grounds, there is a lot hinging on this for the neighbour's and the District Council. Thank you.
