Hi Hebe,

I asked the ECB for comment on the question you asked. Their response is,

I'm aware the applicant plans to use a mobile net cage. However, the surface is unsuitable to be within the boundary – there is no ECB approval in place for this surface to form part of a cricket outfield. I've drawn a junior compliant boundary on the attached to illustrate, with a rough approximation of the proposed non-turf in situ to further illustrate.

The applicant needs to evaluate alternative locations outside of the playing area.

I would add that there are other more appropriate areas of the playing field where this facility could be satisfactorily sited. I have advised the club to liaise with the Sussex Cricket Foundation to achieve a suitable solution.

Best Regards

Jo

Good morning,

Thanks very much for the consultation response you provided on the application above. From my understanding, the objection is made on the basis that the location of the new surface would impact the existing boundary, which is already limited. Before I go back to the applicants with this, I just wanted to make sure you were aware that the proposed training strip will not have any permanent netting around it, and so could feasibly be within the boundary without compromising play. Would this alter the response to the application?

I have also noted your point regarding the discrepancy between the block plan and the quote, and I will look to get this resolved.

I look forward to hearing from you.

Kind regards,

Hebe Smith (she/her)
