

Yeomans Honda & HQ Offices, Littlehampton Road, Ferring Worthing, BN12 6PB: FG/39/18/PL

DETAILS TO DISCHARGE PLANNING CONDITION 13:

HNW are hereby applying for the formal approval of details to discharge the following condition, and suitably supply supporting illustrative evidence to enable this.

CONDITION 13

The development hereby approved shall be operated at all times in accordance with the contents of the acoustic report PC Environmental Ltd. dated 23 February 2018. The use hereby approved shall not commence until details are submitted to and approved in writing by the Local Planning Authority concerning paragraph 3.6 of the acoustic report. The submitted details shall include technical specifications for the noise output of the precise plant and equipment to be installed. Only the approved details shall be operated thereafter.

Please refer to the following submitted document specifically drafted by 'PC Environmental';

- Noise Report (July 2019) Yeomans_BN12 6PB (Condition 13)

The submitted document compiles all mechanical ventilating and extraction equipment to be installed and the associated noise levels produced during hours of operation. PC Environmental assess these levels within their 'site model' against their original acoustic report dated 23 February 2018 to illustrate compliance with the Local Authority stipulated noise level requirements. To summarise, the report concludes that the noise levels produced will be below all background noise levels at all operating times.
