

Biodiversity Statement.

2 Alderney Road
Ferring
West Sussex
BN12 5PJ

Application for;
Proposed single storey extension.

Biodiversity Statement.

The proposal is it is within an established residential area of Ferring. There are some significant trees on the site and are to the South and East boundary of the site but are not near the area of the proposed development. It is therefore considered that any existing habitat will not be compromised or lost because of this development the client would be happy to install two number bird nesting boxes within the curtilage of the property doing enhance biodiversity in the area.
