PLANNING APPLICATION – FG/82/19/A

Advertisement consent for various signs and banners both lit and unlit, totalling 25.

For Yeomans Honda, Worthing Road, Ferring.

Dear sir/ madam,

I am writing to object to the planning application above. There will be so many advertising panels around this site both lit and unlit, it will look like a fairground. The new Honda building is taller than the existing Peugeot garage next to it and can be seen from my kitchen window. Will these advertising signs be lit all night?

This amount of advertising is overkill and can cause a distraction on this very busy road where there have been several accidents.

This area has been allowed to become more commercialised to the detriment of the local people so I hope that you will turn this application down.
