

**Biodiversity Enhancement Statement for erection of single storey rear extension at:
6 Glynde Close, Ferring BN12 5BJ**

Context

The proposal as stated above is for the erection of a single storey rear extension.

The following measures will be implemented to enhance the biodiversity.

- 1) The extension will be fitted with a rain water harvester with an overflow to a soak-away. The collected rainwater will be used to allow for watering the garden in times of no rain.
- 2) It is proposed to install a bee brick in one wall.
- 3) It is proposed to install a bat box on the gable of the proposed extension.

It is hoped that these measures will provide a more sustainable environment.
