

New Fence line with no gaps between panels.

Fence Line is straight for the first 6 panels from the right, then bends as shown by the blue line on the Block Plan. (Fence Line is unchanged).

Top Trellis is shown darker grey - trellis is 6 slats 38mm wide with gaps between slats at 29mm - giving trellis height of 402mm

Total Fence height will be 2.25M - and meet flush with top of existing fences to the sides of the property

Fence will be suspended from 4 inch fence posts located on road side of panels - panels will be adjacent with posts behind.

SCALE 1:100
