This Message originated outside your organization.

FOR ATTENTION OF SIAN EGGINGTON .

Further to your letter dated 20 August 2020 , I would respond as follows :-

1 There is already a 1/1250 scale location plan , coloured , on DRG 19 / 14.A.

2 I completed a CIL form on the application made to the planning portal , when making the application to them .

3 As the proposals shown on the application , are all within the footprint of the existing property , I would request that the dimensions queried in your letter be waived , in this instance , as is possible .

4 As I understand there are problems regarding site visits by planning officers , in these difficult times , I also provided a sheet of photographs , DRG 19 / 14 / P , showing all elevations of the property , and trust that these might be found helpful when dealing with this application .

Would be obliged to receive your reply , confirming all of the above satisfies the questions raised , many thanks .
