RE: FG-95

From Chris Jones <[REDACTED]>**Date** Wed 16/09/2026 09:16**To** Ella Summerfield <[REDACTED]>

Hi Ella,

The existing windows and doors are going to remain so the extension is separate to the existing house.

Regards,

Chris Jones**Living Spaces Manager**

Hi Chris,

Thank you for clarifying,

I am aware that the kitchen has a door with window and the bedroom has a window, my question is about the proposed floor plan. These windows and doors are still visible on the inside of the proposed extension; my question is if these windows will be removed when the extension is being built.

Thanks,

Ella Summerfield

Hi Ella,

Roof plan attached with a scale bar as requested.

The porch on the side has full height frames rather than double doors and there is a single door with a side window on the rear of the kitchen. I have attached photographs which will hopefully clear this up?

If you need anything else please let me know.

Regards,

Chris Jones

Hi Chris,

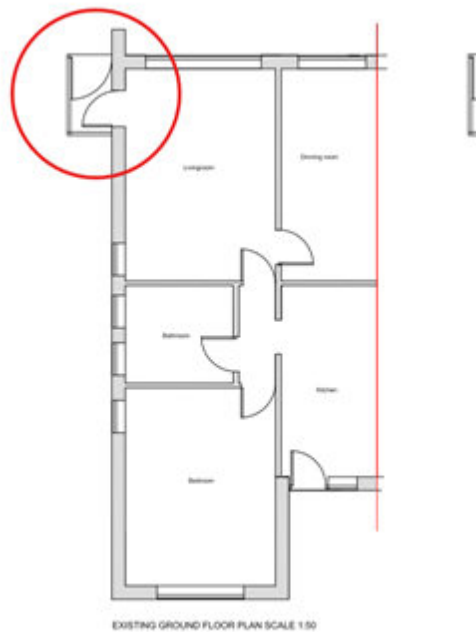

Thank you for the additional information.

Unfortunately, the application is still invalid for the following reasons:

-Could you please clarify if these fenestrations circled are supposed to be here or not in the image below.

-The inconsistency of the porch is still visible, the elevation plan appears to show doors, however the floor plan suggests there are no doors on that elevation of the porch. Please either clarify or amend.

-The roof plan requires scalebars.

If you have any questions, feel free to email me.

Many Thanks,

Ella Summerfield.
