

A 3D architectural rendering of a modern, two-story building. The building features a dark grey facade and a prominent glass balcony on the upper floor. Large glass windows are visible on both floors, and the ground floor has a large glass entrance area. The building is shown from a low angle, casting a shadow on the ground.

A 3D architectural rendering of a modern, multi-story building. The building features a flat, dark gray roof with a small, rectangular, recessed area in the center. The facade is primarily white with large glass windows and doors. On the left side, there are three windows: a small vertical one, a larger one with a dashed line indicating a door swing, and another one below it. The right side of the building has a large glass wall on the ground floor and a balcony with a glass railing on the upper floor. The interior of the balcony and the ground floor are visible through the glass, showing a light-colored floor and some furniture. The building is shown from a low-angle perspective, emphasizing its height and modern design.
