Dear Raman

Further to my inspection of your Macracarper tree at 7 Wellers Close, Felpham I would make the following recommendations.

Unfortunately, the tree has suffered from lack of care, previously having been in a farmer's field before becoming part of the new housing estate. No work has been done on the tree except with crown lifting when the boundary fence was put in.

To reduce the Macracarper: Reduce top and sides by 3 metres
 Remove deadwood
 Crown clean and thin by 20%

I trust this assists you and please do not hesitate to contact me if I can help you further.

Kind regards

Nigel, Greenbelt
