Hi Michael

In response to your request for comment I would have to advise as follows;

It would appear from the application that discussions have been had, with agreement in principle already made between the applicant and ADC for the formal removal of the sports facilities in this location in leu if financial contribution to be provided with a deed of variation to the 106 agreement.

My comments relate not to the above, of which I have had no involvement, but solely to the proposals contained in Dwg 04/04/2019 Detailed Hard and Soft Landscape General Arrangement Plans 2 of 2 D1530 L320/1 which shows the detail for this area now as an area of accessible POS with contouring, mounds, grass and seed species mix, existing to be retained trees and new tree and shrub planting proposals. This area is shown also to have fencing to secure from unwanted vehicular access.

Further clarification is requested re the tree and shrubs detail in the proposed plant schedule. Please request that this information is provided to include actual quantities, plant species, and proposed size at time of planting.

I confirm that the proposals would form a suitable public open space area, subject to appropriate maintenance provision and submission and agreement of further detailed plant specification then I would recommend no landscape objection to the general layout details as shown for this area.
