For a detailed planning application and with so many significant trees affected, I would expect all arboricultural matters to be resolved up-front.

That said, you may feel it can be dealt with as you suggest – I guess that would be in the interests of expediency.

I have to stand by my initial advice.

Mark

Mark,

Could all of your requirements be covered in a planning condition or is the information required to be submitted up-front, prior to the determination of the planning application (FP/103/19/PL)?

I look forward to receiving your response.

Regards,

Michael
