MR DAVIS
PLANNING DEPT
ARUN D.C.

RE. FP 104 18 HH

Dear Sir

A couple of comments on
the above application

As the property (which has been
extended many times over the years)
is situated on elevated land it
tends to dominate the central section
of Vicarage Lane. I feel that to
build dormers in the roof would
merely add to the incongruity of
the building with its neighbouring
properties. My other concern is of
privacy, with dormers overlooking my
own house on the opposite side of
the road. Unfortunately there is no
natural screening (the owners having
removed trees some years ago) which
might have alleviated the effect.

Yours sincerely
