Dear Bryan,

Rest assured your application has not got lost in the system. It is still in a queue but relatively high up my list and I should be able to devote some time to the report next week (I have diarised to start it on the 21st).

However, you should note that I have spoken with the Conservation Officer about the proposal and it is our view that the addition of the front dormers and the raising of the roof height will result in a dominating impact on the street scene and result in harm to the setting of the Conservation Area opposite and the setting of the Grade 2 Listed Building diagonally opposite. Therefore, my decision will be a refusal.

Kind Regards

I note that this application registered on 1st May seems to have gone off the radar.

Is it possible to have an update please.
