Subject: Prior Notification of Works to Tree(s) In A Conservation Area - FP/104/26/TC

Reference: **FP/104/26/TC**

Proposal: Crown reduction and reshape to 1no. silver birch (T1) to leave a height of 3.5m and a spread of 2.5m. Crown reduction and reshape to 1no. silver birch (T2) to leave a height of 6.5m and a spread of 3m.

Location: Old School Mews, Felpham Road, Felpham, PO22 7PT

I undertook a desktop review on 28th September 2026, which was adequate for me to determine this Town & Country Planning Act 1990 (as amended) s211 Notice.

I am satisfied this work will not result in harm to the character or appearance of the conservation area. Neither birch tree is of sufficient merit to be a suitable candidate for preservation.

Conclusion

I raise **No Objection** and see no reason to make a Tree Preservation Order.

Recommended INFORMATIVE: Hard pruning creates numerous and/or large wounds, incurring a physiological stress which may affect long-term health and vitality. The optimum time for pruning a birch tree is summer or midwinter, as prone to bleeding.
