### **To Whom It May Concern:**

Re: Linda MANN DOB 21 March 1948

(current address & telephone number until October 09)

9 Holton Hill Brighton West Sussex BN2 6RQ . Tel no. 01273 387497

This lady has both multiple sclerosis and lymphoma. The house she is in is no longer suitable and she has horrendous stairs to the front door that she can longer manage. She has bought a bungalow in Bognor Regis and she would like an Occupational Therapy assessment.

She has consulted a builder about a ground floor extension of a wet room and bedroom.

I am provided her with this letter for planning permission, but I would be most grateful if the Occupational Therapists can assist in the changes.

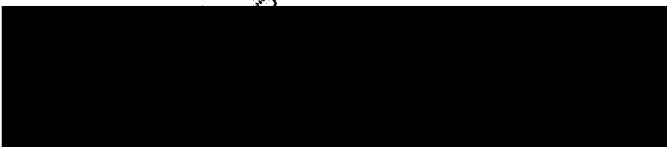

Her new address and telephone number when she moves into her bungalow in October is:-

**54 Glynde Crescent  
Felpham  
Bognor Regis  
West Sussex PO22 8HT**

**Tel: 01243 838267**

I am providing this letter mainly for the planning permission but I think it would be very helpful if she has a Social Services OT to help guide her. At the moment she is stuck in her house at Brighton.

She has already found out that she doesn't fulfil the criteria for disabled facilities grant.
