4. Description of the Proposal

Please describe the proposed single-storey rear extension.

The extension is a single storey conservatory structure. The dwarf walls will be constructed of cavity brickwork to match the existing dwelling as near as possible. The structure above the brickwork will be double glazed white upvc including the roof. The existing smaller conservatory which will be removed is already constructed in white double glazed Upvc as are all the windows and doors to the dwelling so this will remain in keeping with current materials accepted and in use on the premises.

The roof pitches will follow those already on site and the finished level of the roof will not extend above or outside the existing roof line so it will not be visible from the front elevation (First Avenue Road) side of the premises.

The extension is a conservatory and so the external quality doors leading from the house into the conservatory will remain or match the existing currently installed.
