Dear Mrs Grieves,

Thank you for your letter explaining the parts of the application which needed clearing up before we can officially submit the application. In your letter you addressed two points.

1. That I submit a location plan identifying the trees location. For this please see attached documents.
2. Confirm that the tree is old enough to be covered by TPO/4/1983. After meeting with 2 different tree surgeons I can confirm the tree was post 1983 therefore covered by the Conservation Area.

Please do not hesitate to reach me via this email address, alternatively you can reach me on 07881910973 should we need to clear anything else up.

I look forward to hearing from you soon.

Kind Regards
