

Planning Statement for 12a Kingsmead, Felpham, PO22 7BE

Garage Conversion

We would like to change our garage into a bedroom, which would change our property from a 2 bed to a 3 bed. We currently have 2 children sharing a room and this would be a lot more cost-effective way of getting another bedroom than moving house.

The garage door would be replaced with a window, this would be the only change noticeable from the front of the house. An internal door would be fitted, going from the garage into the main hallway of the house.
