Subject: Mr Ward's comments dated 9 August, 10 Alfriston Close FP/139/19/OUT

Dear Maria

I have noticed that the above objection has been filed on the application site obviously after the 8 August deadline, but I think it should be pointed out that the car parking spaces he is referring to that would be "lost" is not correct as:

1/ They do not appear to be official parking spaces, rather the turning area for the hammerhead.

2/ With the repositioning of the lamppost on the corner of the plot the parking area, as mentioned in my 8 August comment, it could actually be accessed without affecting these assumed to be unofficial parking spaces anyway.

Kind regards

Claire Francis
