Dear Amber

e: FP/13/20/PL

Further to my last e-mail I have had a meeting with the hotel owner who has confirmed that the land I thought may have been owned by WSCC is in fact owned by the hotel, accordingly I have attached an amended certificate A.

They applicant also wants to add a gate from the promenade to the terrace, subject to ADC engineers approval, as we need to remove a small concrete upstand at the head of the access ramp. We also want to extend the terrace back into the site over an existing flower bed and grassed area at the same height as the existing terrace.

I have attached all drawings and DAS amended to cover the above.

Also description can be amended as follows:

New outdoor seating area together with new fence, gate to promenade & planter

Can you please confirm the above is acceptable, I understand that you may have re-advertise the application, although it would be great if not.

Regards

Ivon
