Dear Miss Rawlins.

With Ref to our telephone conversation to day re above project, I would confirm the clients would prefer an additional glazed window to be added to North wall of shower room(as per drawing deposited), situated in existing annex.

As we discussed the planning window conditions attached to the consent only apply to the extension ie. Garage. I understand this would not require any further planning consent.

I would like to thank you for your help and consideration in this amendment.

Yours Sincerely
Richard Taft
