Has the site been surveyed for breeding birds?*	☐	☒
Will areas of hedgerow/scrub/woodland/trees or other features likely to be used by nesting birds be affected by the proposal?*	☐	☒

If 'Yes' then mitigation measures to ensure occupied nests are protected should be included with the application.

Badgers	YES	NO
Has the site been surveyed for badgers?*	☐	☒
Is there any evidence of badgers on or near the application site?*	☐	☒
Are badgers commuting through the site to foraging areas?*	☐	☒

Badgers use a wide variety of habitats and setts can be found in hedgerows, woodlands, scrub and field margins. Where appropriate, safe routes to foraging areas should be incorporated into the development proposals. Further information can be found in 'Badgers and Development' available at:
