Good afternoon Amber,

Having reviewed the document entitled 'BS4142: 2014-A1:2019 | Noise Assessment | Site: Caffe Grey, 26 Felpham Road, Felpham | Project: J3336 | Issue 2' (dated 1/04/2022) [produced by Acoustic Associates Sussex Ltd.], I find the report, calculations and findings to be reliable. I therefore recommend approval of the proposed scheme.

The performance of the proposed mitigation measures will be dependent on fitting, therefore following implementation of the scheme, I recommend a verification report be required to be submitted to the planning authority for approval to demonstrate that the noise levels details in the assessment have been met.

Sincerely,
Craig

Dear Amber and Craig

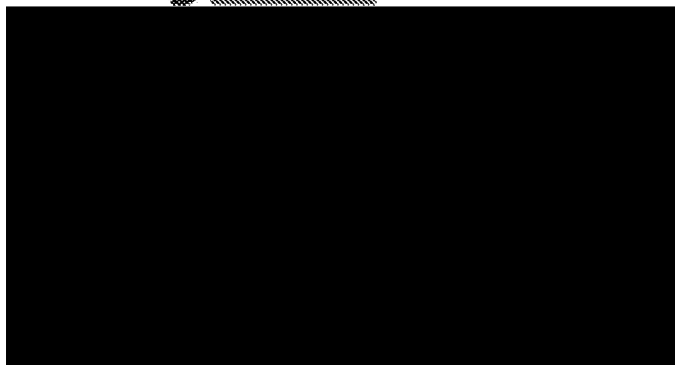

Please find attached revised Acoustic assessment providing additional information as requested. We hope that this alleviates all concerns and is sufficient now to enable you to grant consent.

Regards

Simon

Dear Mr Binns,

I copy below the email below from EH regarding the noise assessment data.

He has again requested the raw data before he is happy to recommend approval of noise assessment.

Please are you able to send this to me.

Unfortunately I am out of office tomorrow and Friday. I don't really want to add the condition when it nearly there so it may result in a slight delay.

Apologies and thanks

Amber
