Subject: Planning application no FP/162/18/HH

Ref No9 Roundle Road, Felpham, PO22 8NL

Dear Sir / Madam

I refer to this application and object to the increase in enlarged footage to the rear and installation of dormer windows to the property as Material Consideration. The increase in floor footage will have an effect on the level of our privacy as the increase will reduce the rear garden area by half bringing the living accommodation and associated noise levels much closer to our own property. The installation of dormer windows to the rear of the property would mean that a direct view could then be achieved from this property into the rear of our property which does not exist at this present time as the existing building is only single storey. The change in style will also have an impact on the appearance of the area which is a privately owned estate.

I therefore object to this application.

Yours faithfully
Andrew Handson
