House

We wish to remove two birch trees and a cordyline, all of which were planted by my husband, who is horticulturally trained. As these were planted long after the TPO was made for the area, and ~~as~~ ~~such~~ are not subject to the TPO.

The reason for submitting this form is so that the council is able to recognise that these are not protected trees.

We plan to plant some more trees in our garden, which will be small fruit trees and one or two other small trees.
