Subject: Tree officers response FP/171/18/PL

Hi Simon,

I hope all is well. I have tried to call a few times over the past couple of days but can't seem to catch you. Could you please give us an update on the tree officer's position on our revised scheme. We are all very anxious that if there are any further amendments required we are pushing the time restraints for getting in for the December committee meeting.

If you have any questions on anything please give me a call at any stage.

Kind regards,

James
