Dear Mr Davies,

I have just received Arboricultural comments regarding your application for tree surgery at 22 Felpham Way, Felpham.

As it stands the application is set to be refused, because the Arboriculturalist does not agree with the thinning works requested. If the thinning works were removed from the application then I believe the application would be looked upon more favourably.

Would you accept the change of proposal?

Please reply within a week to let me know.

Yours sincerely,

Z Denton
