Dear Mr Temple,

I am writing to object to planning application FP/183/17/HH. The reason is because of its height. When I lived in Elmer I talked with an officer in your office about a building in the garden next door and was informed the height limit was 2 metres. There is no way the building erected can be called a garden shed.

I have to admit I have been ematically upset by this building with its high windows overlooking my new home just weeks after moving into Felpham. I was widowed after 50 years and downsized. I carefully chose my new home to have the rear living area not overlooked. This did not last long.

Yours sincerely

Mrs C. J. PARR
