Littlehampton.

Dear Sir,

Re. 8 Ajax Place. PO22 7QR.

I wish to register a strong objection to the large shed at 8 Ajax Place. The new structure is over half the width of my garden. Fallen trees necessitate a re design of my garden with overgrown shrubs and trees being cleared for ease of future maintenance. The new shed dominates my garden being well over 6' high - nearer to double that height.

There is a further garden eye-sore to the North of my garden at No 20 South Drive where a wooden tower (approx 30 feet high) has 2 large, black and white painted fair-ground 'eyes' over-looking my garden.

At the South, at No 26 South Drive there is a large shed that was used as sleeping quarters by the previous owners. This is also very dominant and has been added to on three sides.

From what was a private garden, has now become surrounded on three sides with large dominant structures and has greatly de-valued the pleasures of the garden and the re-sale value of this home.

Yours sincerely
