Importance: High

Dear Maria,

Further to my email below I note none of the drainage information submitted under cover of that email (dated 23rd October) appears to have been added to the online file for consideration. I would be grateful if you could confirm that this information has been forwarded to the Council's drainage engineer for their input, in order to avoid potential pre-commencement drainage conditions.

In addition I would appreciate if you could provide me with an update on the current application and your likely recommendation at this stage.

I look forward to hearing from you shortly.

Kind regards,
Natalie

Dear Maria,

The Applicant has provided us with a comprehensive drainage strategy and supporting technical information in order that a pre-commencement condition relating to drainage would not be necessary. I trust this can be added to the application file for consultation with the Council's drainage engineer.

Should you have any queries please let me know.

Kind regards,
Natalie
