

REASONS FOR PROPOSED TREE WORK

T1 Sweet chestnut at the front of the property:

- Lateral prune to source 1 x 17cm diameter truncated limb at 1.6m heading west
- Lateral prune to source 1 x 12cm diameter truncated limb at 2.4m heading west
- Lateral prune to source 1 x 25cm diameter truncated limb at 2.5m heading west

The specification will achieve a crown lift over the drive area; all three limbs have been pruned in the past.
