RE: Planning Application FP/212/20/OUT  
(NO: 6, The Loop)

Dear Ms. Tomalova,

My partner and I would like to voice our objections to the above planning application.

This site occupies an important drainage pond for the estate, and any building work upon it could seriously interfere with the drainage (especially the sewage problem) in the area.

We feel that to build here would be to ignore the basic standards of living, and show a selfish disregard for the community.

We both vehemently oppose the application.

Yours Sincerely
