Subject: RE: Middleton road block plan

Dear Chris,

Thank you for your email. However, the application is still invalid as the width/shape of the extension does not match between the block plan and the proposed floor plans. In addition to this, the dimension of 1m (on the right hand side) is incorrect.

In respect of the width not matching between the proposed floor plan and the rear elevation, we do not print the plans and the plans have been scanned at the same paper size as the original by the council, therefore it appears that the inconsistency is with the original version of the plan.

Kind Regards,
Charlotte
