Hi Amber

Whilst I appreciate this representation is outside of the response date of 20th December I would appreciate my comments be considered as my property is the only one that is materially affected by the proposal.

My objection to this application is based on the fact that it will further decrease the aspect and privacy of my rear garden which has already been severely compromised by the current occupants of 38 Middleton Road by firstly reducing the height of a row of conifers screening the property from approximately 30' to around 15' before completely removing them, I presume to accommodate the large outbuilding that has since been constructed facing the property.

Had the removal of the trees not happened I would have no interest in the current proposal which will also have the added consideration of reducing my property value and resale opportunity.

Thank you in anticipation of your considering my comment.

Just as a final observation, the siting of your Site Notice is interesting as it is nowhere near my property and as such did not prompt any particular interest from anyone in the household.

Many thanks and regards,

Steve Tanner
Owner 18 Ajax Place, PO22 7QR
