Planning application ref FP/22/19/HH

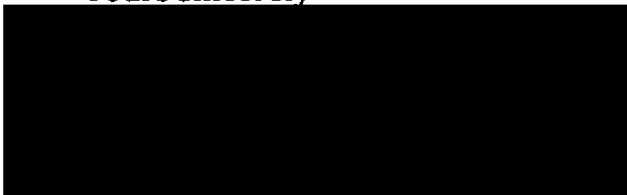

Dear Amber Willard

I am writing with reference to the above application. My property is situated behind the proposed development and having reviewed the plans on the ADC website I wish to raise the following concerns.

My major concern is the size of the rear window on the second floor, and the fact that it is on the vertical wall not the sloping roof. The back of my house, my kitchen diner, back bedroom upstairs and my side garden would be in the sightline from this room which I feel would result in a significant loss of privacy.

I would therefore request that my concerns are taken into account and the current proposal is reconsidered.

Yours sincerely

Felicity Hurcomb (Mrs)

cc; Richard Wickens Clerk and Responsible Financial Officer
Felpham Paris Council.
