Hi Richard

Could you please upload this too in answer to your email, I've just corrected some points and wording etc, thank you.

Samantha

Dear Richard

The parish council after the meeting voted no but when asked the reason they said "they didn't know and would fill that in later". When the official decision comments came out later the reasons mostly were we understand, not on the material considerations list, and therefore should not of been used. The reason named as Caryles Cafes objection we know to be incorrect.

The parking issues, we know was already cleared by transport and the fact we might grow, as we tried to explain is impossible as we are only using our lounge and kitchen, which is clearly restrictive and we've already agreed to the ceiling of 20 people.

Our hours have been drastically cut and we've changed lots of other things too in line with the councils reports.

I'd hate it to be turned down on reasons that are untrue.

Samantha
