Dear Mr Temple

Re: Application FP/245/16/PL

I understand that tomorrow 17th March you have a meeting to discuss the above application. Whilst I realise you will be well aware of the responses that have been generated by this application from both sides, I would like to enclose this map which is a representation of the responses from the homes directly affected by this application. Dots represent homes that have responded to you. I believe this map clearly puts into perspective what you have received.

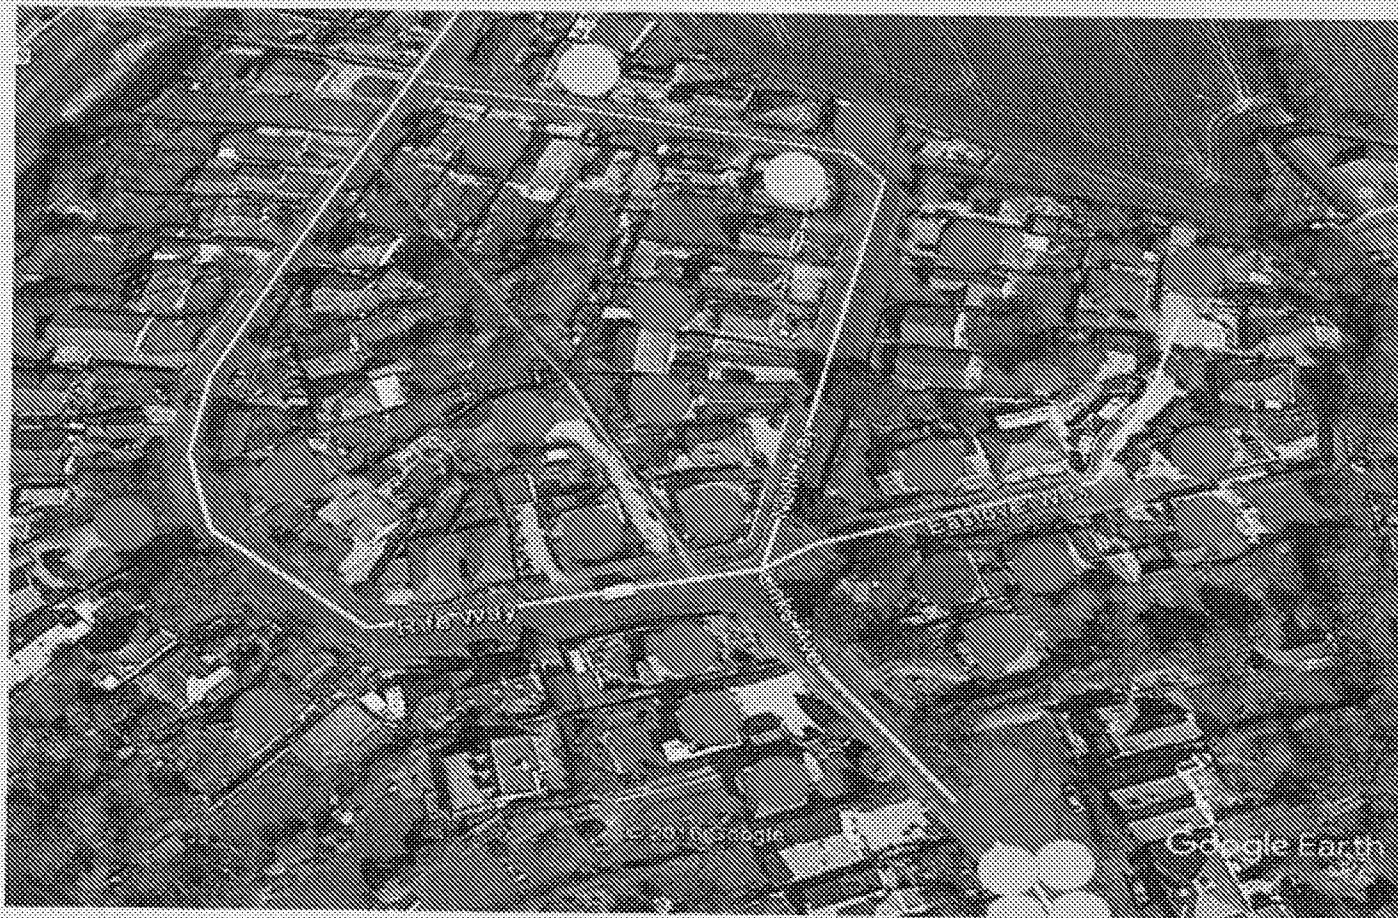

Thank you for your consideration.

Yours sincerely,

Enclosed: map
