Dear Mr Sampson,

This email is regarding your current application for tree consent works at the Open Space bordered by Copeland Road and The Ridgeway.

As it stands, the application is set to be refused, as the Arboriculturalist believes that the works to the Grey Poplar are excessive.

If you would like, I can remove the 4m height reduction and 2m spread reduction from the application. This would allow you to perform a 2m height reduction and 1m spread reduction.

Please reply within 2 weeks so I can change this for you.

Many thanks,

Z Denton
