Subject: FP/274/18/PL 10 Felpham Gardens

Dear Mr Crowther

I have been following, with interest, the process of the above Planning Application and wonder if I may comment in favour of the plans.

Admittedly, I do not, at present, reside in Felpham but feel my comments are justified in as much as it is the area I have been visiting on a regular basis for the past 40+ years and for the past 10+, my close relative who lives in Clovelly Avenue and I have been keeping a close eye on the development.

The bungalow which is currently in a dreadful state of repair, and has been for some years, is an eyesore not only to other local residents but to all those using the park. The proposed plans for two chalet bungalows with a frontage facing the park appears, to me, to be attractive and of no nuisance to any other neighbour or passer-by. Yes, admittedly, the gardens will be smaller and there may be concerns that other properties are "overlooked" but sadly, this is the way of the world now with new housing popping up all over the place and our garden space much smaller than in previous years.

As I say, I know and love the area very well and as I am in Felpham at least once a week I feel I can qualify as "a resident".

I hope my comments in favour of this development to enhance the area will be valid.

Kind regards

Lynda Feeney
