Downview Road is already gridlocked twice a day with existing traffic being the only access to the school. At these times the side roads become impassable. Another 400 houses will increase hugely the volume of traffic trying to get onto the A259 at the Downview traffic lights. The ONLY WAY this plan should go ahead is with the access feeding in from the new Bognor bypass I.e. Charlie Purley Way.

There isn't the local infrastructure to support this proposal. Healthcare services are already overstretched. If the housing requirements are so great, then surely build them where the land is already going to be ripped up for the new golf course. Leave the existing land with its parkland setting alone. As far as I am aware, NEITHER of the proposals are in the local plan anyway and should be rejected out of hand.
