Hello,

The current members of Bognor Golf Club were originally told that the 9th and 10th holes were going to be taken by the Council to build a connecting road to the bypass, but that has turned out not to be true, so the members were duped into voting for this change. Members were also told they would get FREE membership for 2-3 years on the new course if they voted yes, this has also proved to be untrue.

Building another 600 houses on the current golf course would be catastrophic for the local community. A recent survey told us that 2,500 cars a day use Firs Avenue alone and to add the possibility of a further 800 cars a day using Firs Avenue, Outerwyke Road and Downview Road would be madness. These three roads are the main routes for school children to bike and walk to FCC and Downview Primary and to have over 3,000 cars a day speeding around these routes would be very dangerous indeed.

The Council should know very well that the schools, hospitals, dentists and doctors surgeries cannot cope with any further increase in population, enough is enough. Whatever the developers promise the Council will all change when they get that permission to start digging up an historic golf course and its beautiful trees and wildlife.

We were promised a new School and football pitches when the massive Felpham housing estate was given the go ahead, but the developers did not build anything that they promised, so be warned!

Regards,
Mr A. Parke
